Data Sleek
Streamline your data

Data-Sleek
Four Core Service Pillars

Discovery & Alignment

Data Strategy

- Data Inventory
- Data SWOT
- Identify Use Cases

Integration & Governance

Data Centralization

- Data Integration
- Data Dictionary
- Data Governance

Modeling & Preparation

Data Transformation

- Data Modeling
- Data Quality
- Data Semantic

Insights, Prediction, & AI automation

Data Activation

- Data Analytics
- Predictive Analytics
- ML / Agentic AI

Key Challenges
Addressed by Our Core Services

- Lack of Clarity on Data Priorities
- No Clear Use Cases or ROI
- Fragmented Data Ownership
- Technology Chasing
- No Long-Term Roadmap

- Siloed and Duplicated Systems
- Slow, Manual Data Integration
- No Single Source of Truth
- Poor Data Documentation
- Weak or Nonexistent Governance

- Unreliable Data Quality
- Outdated or Inflexible
- Broken or Hard-to-Maintain ETL/ELT Jobs
- Poor Semantic Layer
- Slow Time-to-Insight

- Limited Analytics Adoption
- Reactive Decision-Making
- Manual Processes – No Automation
- AI Is Not Connected to the Business
